# [ The Parksafe Profile ]

## Mission Statement

To provide its customers with the best possible protective clothing and industrial safety equipment at prices that are competitive and service that is efficient, customer focused and reliable.

## Corporate Summary

Regardless of industry, the protection of employees in the workplace has been made compulsory by government.

The statement above may be clear and concise but the solutions are not always that evident. Ensuring that the proper level of protection is available without the risk of productivity loss or employee discomfort and at a cost that is reasonable is not always that easy to find. The market offers many products, but can you be sure that the solution offered is in the best interest of you and your employees? At Parksafe we understand the complexities of having to make these decisions. We also understand the value of your employees and the need to get the job done. Parksafe is dedicated to providing its customers with the best solutions at the most competitive prices.

## Corporate Overview

Parksafe Protective and Safetyware cc was incorporated on 11 June 2003. Its key focus is the supply and distribution of Protective and Safety Clothing and Equipment.

We carry an extensive range of quality safety products and protective clothing, including but not limited to:

### Supplier of:

Protective Gloves  
Head and Face Protection  
Overalls & Corporate Wear  
Screenprinting & Embroidery  
Gumboots  
Sterilised Wiping Rags

Barrier Fencing & Traffic Cones  
Reflective Clothing  
Safety Signs  
Rainwear  
Freezerwear  
Safety Footwear

At Parksafe we pride ourselves on our customer service, responsiveness to customer requests, identifying customer needs, advising on product selection and providing quality products at competitive prices.

We are able to render value added services to our clients by providing a consulting service, ensuring that the correct equipment is always in use, thereby living up to our motto "Protecting a Company's most valued asset, its people".

## Employment Equity & BEE Level

Parksafe is 100% black female, owner managed and the majority of its employees are from previously disadvantaged communities. Recruitment, selection and development of employees are based on merit, in accord with our strict anti-discrimination policy. Parksafe has successfully been rated a Level 1 BEE contributor based on the Broad Based BEE Codes of Good Practice (Codes 100-800).

## Supporting South Africa

Being in a tough and competitive market has not affected the decision of Parksafe management to seek and support companies manufacturing products locally. Selected CMT work is also outsourced to a few home-based industries in under-privileged communities.

We will continue to strive towards our goal of maximizing the sale of locally manufactured products.

## Brief Owner Profile

Parksafe is owner managed by Zurayda Parker

Zurayda has an extensive and varied experience in the protective and safetyware industry. She started in 1974 as a clerk with a well-known supplier of protective and safetyware and progressed to a senior financial position. In 1984 she joined a new venture and progressed to the position of director and a member of senior management when it became a subsidiary of a listed company.

In 2003 Zurayda started Parksafe as an initiative in self-growth, and as an empowerment vehicle for her staff.
